Fenway High School

Dear Class of 2023,

Congratulations! We are so very proud of you as Fenway students and we hope that you come back to Fenway to visit and continue to support our school community. You have been on a journey through high school and adolescence and have transformed into the person you are today. At Fenway, our motto is: "Work Hard. Be Yourself. Do the Right Thing." This is more than a motto, but words to live by. We are called to become the best version of ourselves and that means working hard and living a moral life. As you all move on, you take with you what it means to be a Fenway Panther and to live our motto. I will leave you with some of my favorite quotes on our school's values:

Work Hard. - "Success is no accident. It is hard work, perseverance, learning, studying, sacrifice, and most of all, love of what you are doing or learning to do." - Pelé

We don't get anything meaningful accomplished without commitment and hard work. You've worked so hard in high school in so many ways. Being advocates for yourselves, our community, and social justice takes hard work and dedication and as Fenway graduates, this is a value that we hold.

Class of 2023

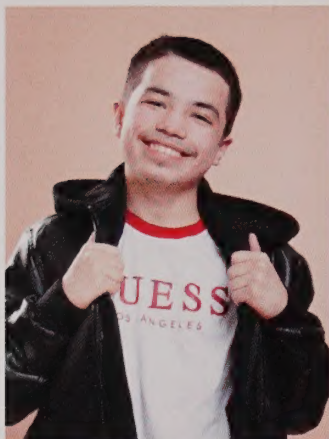

Be Yourself. - "Do the best you can until you know better. Then when you know better, do better." -- Maya Angelou

Be the best version of yourself. To be yourself takes courage and the willingness to question who you are and what your role is in making our world a better place. Continue to be proud of yourselves with love and acceptance. Thank you for bringing your talent, energy, and full and best selves to Fenway.

Do the Right Thing. - "The time is always right to do what is right." - Martin Luther King Jr.

Our community and our country need you to be willing to stand up for justice and for what is right. At Fenway, you've studied about inequities in our community, our country, and our world. As you leave Fenway, we hope that you continue to fight for social justice. We wish you all the best, Class of 2023. Know that we love you and you will always be part of the Fenway Family.

Sincerely,
Geoffrey Walker

A needle aids in sewing stories into the fabric made by the generations of those before us

One that you are currently bidding into along with your own stories
 Stories that may ease the tender
 Stories that may heal a wound
 Stories that may inflict passion
 Stories that will build unity
 Often times mimicked by those who forsake the physical and never bother to acknowledge the internal
 Since the flesh is more valuable and the spirit remains priceless
 The spirit that has kept us equable and grounded
 The spirit that carried our ancestors here
 All of which has kept our backs straight and heads high through historical travesties
 All of which cannot be taken nor be mimicked
 Though our paths may never cross again
 This will not serve as a loss but as a grindstone to our swords
 A new page turned with bookmarks to honor and remember those who've provided guidance in times of uncertainty
 A helping hand lent in times of despair
 An acquaintance showing out while others remained in silence
 Our village may neither be the safest nor the richest, yet provides something as rare as diamonds
 Love

True unconditional love expressed physically rather than verbally
 True love that will instill strength
 True love that will cause one's blood to flow
 True love derived from instinct rather than a statement
 True love that reassures us, no matter how many of whom find it odd
 hope is still held onto by withered hands, will be the same to find it dangerous to take a tour where we've grown
 The community that has instilled in us each to vindicate yourself from being uprooted
 To give what we get and to teach what we've learned
 All of which cannot be taken nor be mimicked
 All of which has come from the needle that aids in sewing stories into the fabric made by the generations of those before us

Blood, Sweat, and Tears - Adrianna Diaz '23

My mother moved mountains so I could build castles
 I built castles so I can have the privilege to move this tassel
 and when I move my tassel, it is proof I fought my battles.
 Listen, I never had it easy, so let me make this clear
 I swam through tears to get here
 Sailed the seas of my own blood and sweat until this boat drowned from the hatred and regret
 I've balanced on knives, time after time
 With my own textbooks on my back
 I hit rock bottom so hard, drowned in oceans so deep you would've thought my lungs collapsed
 Depression and the pressure of success jumped me so bad, it made these bruises look like tats
 Haters made my self esteem go so low, I had to use greatness to fight them all back
 I had to run up 720 steps, 720 days, never mind all the weekends and breaks
 Don't forget the failures and mistakes to get here
 My hands blistered from crawling out of my own mind, time after time, because of the people who chained me in here
 Do you know how many battles with these monsters I had to face or how many wars I've gone through to craft this crown?
 My ocean of success is so big, you better know how to swim because this version of me now would take you down
 I had to sacrifice years and sleep for this
 This is more than grades, this is a future, there's a whole dream to this
 To the people who took my life and tried to make me look stupid, you can't take my music of success and remix it
 You can't drown me and expect me to never come back this is a strong woman you're dealing with
 I didn't pick this path, I built it off of dedication and achievements
 Built it off pain and some disagreements but
 I want you all to remember our abilities don't make us any less diligent
 Our struggles don't make us any less brilliant
 The power in our words is the way we can show resilience
 Our next steps are living proof of our commitments and our success is the only way we can show the world that we are different.
 Listen...
 With all the loved ones we've been grieving, look at everything we've been achieving
 We've had moments where we have lost ourselves but look exactly where each of you are sitting.
 And everyone's journey looks different but make sure you are cautious of the road you are paving and picking.
 Live life to the fullest cause this is the only one you are getting.
 I am proud of each and every one of you ... keep moving mountains and never forget your ocean of successes
 And just a little side note...as we get closer to the end of this chapter that we've all wrote, we finally get the chance to start living and not just fighting to survive ... we don't have to settle for a chapter when we all have the chance to write our own books
 Even my blood, sweat, and tears are proud that I'm still here.
 No one can ever dim my light when I made my life out to be the brightest chandler.
 Losing "friends" to find peace that's the best trade to me and working hard to live a dream that's what life means to me.
 We swam through blood, sweat, and tears to get here now our success will be the greatest sea.

- Congratulations to the class of 2023!!!
